310-HART (4278)

- **HART - Drayton Valley** - Head Office & Main Yard
 - Servicing Rocky Mountain House, Red Deer & surrounding area
- **HART - Whitecourt** - Office & Yard
 - Servicing Edson, Hinton, Fox Creek & surrounding area
- **HART - Grande Prairie** - Office & Yard
 - Servicing Grande Cache & surrounding area
- **ARTIC THERM INTERNATIONAL**
 - Servicing Alberta & B.C.
- **Evolution Power Projects**
 - Servicing Alberta & B.C.
- **Evolution Power Solutions**
 - Servicing Alberta & B.C.
- **Westar Oilfield Rentals**
 - Servicing B.C.

Equipment Rental Guide

www.hartoil.com

Specializing In:

- Wellsite Accommodations
- Wheeled Combo Units
- Power Generation
- Light Towers
- Stadium Lighting
- Waste Holding
- Wellhead Scaffolding
- Facility Scaffolding
- Flameless Heat
- Natural Gas Power
- ... and much more!

Infrastructure & Surface Rentals

Industrial | Oilfield | Construction | Facility

Double Ender

- 12 ft and 14 ft by 60 ft living / office accommodations with standard amenities

Single Ender

- 12 ft by 60 ft living accommodations with a separate office / entry space

Command Center

- 12 ft by 60 ft with an office on each side, common area in the middle.
- Kitchenette and washroom
- Tables and chairs for meeting area

Drilling Command Center

- 12 ft and 14 ft by 60 ft units
- Full and half kitchen, washroom, three separated work spaces

Open Meeting

- 12 ft by 60 ft open concept
- Some models include a kitchenette
- Tables and chairs for meetings

Gym Shack

- Remote work sites can be limited, give your staff motivation and a productive option during their time off!

Office Trailer

- If site portability is a concern, then look no further. Office trailer models include standard office, medic, and meeting style units. All of our office trailers are fully equipped with modern amenities.

Roughneck Pull Trailer

- Our Roughneck Trailers give you the amenities of home on wheels! Desk, dining table, TV with satellite, full kitchen, washroom with shower, and a bedroom. Winter capable and able to haul fully loaded.

6kW Light Tower

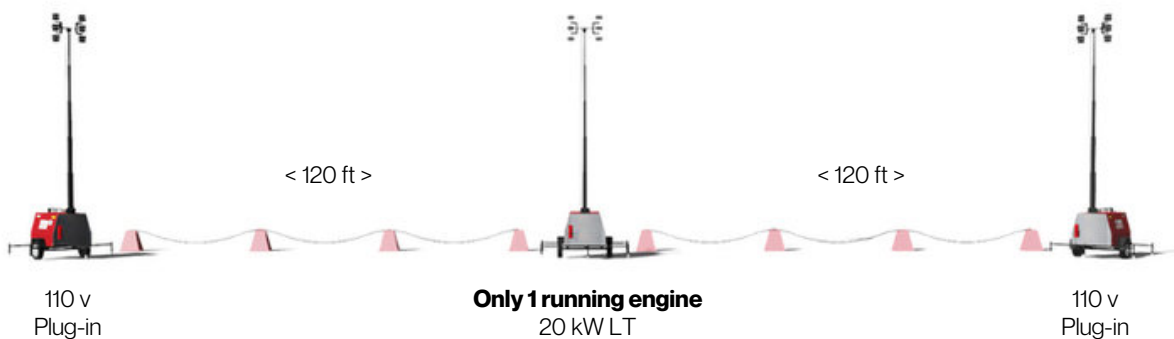

- 4 L.E.D. lights
- Hydraulic mast
- Multiple plug-ins

20kW Light Tower

- 6 L.E.D. lights
- Hydraulic mast
- Multiple plug-ins

HYBRID

- Plug-in unit to use just lights with another power source

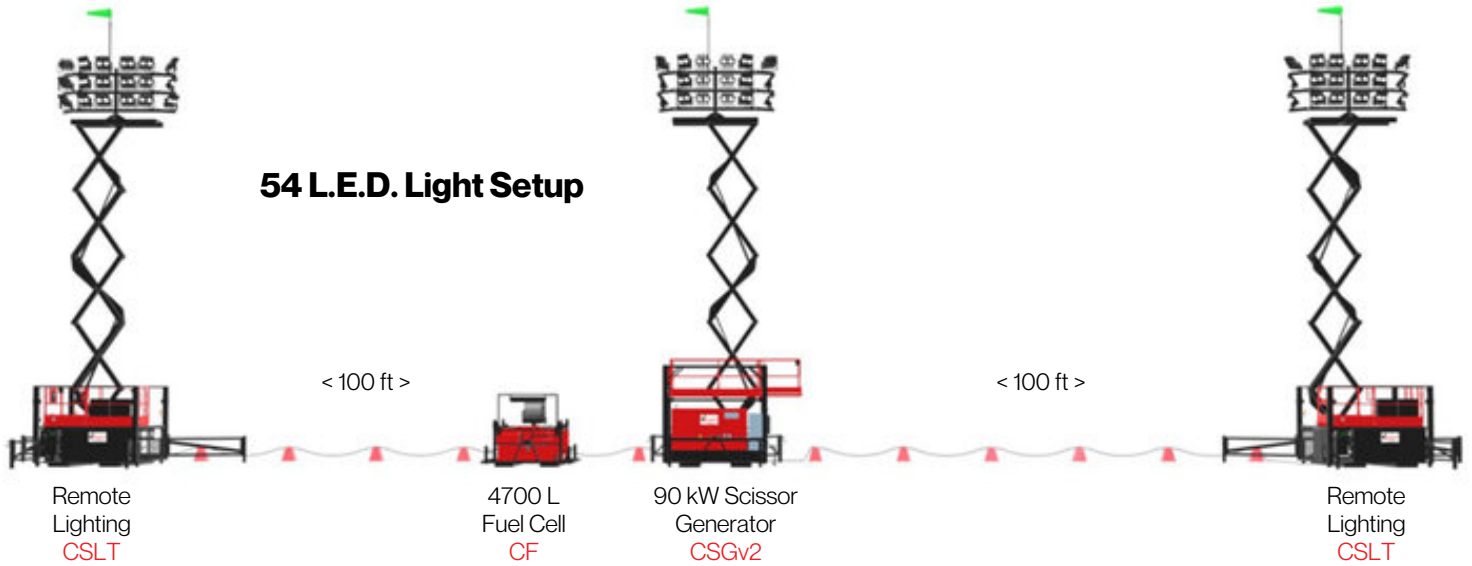

HYBRID Light Tower Setup

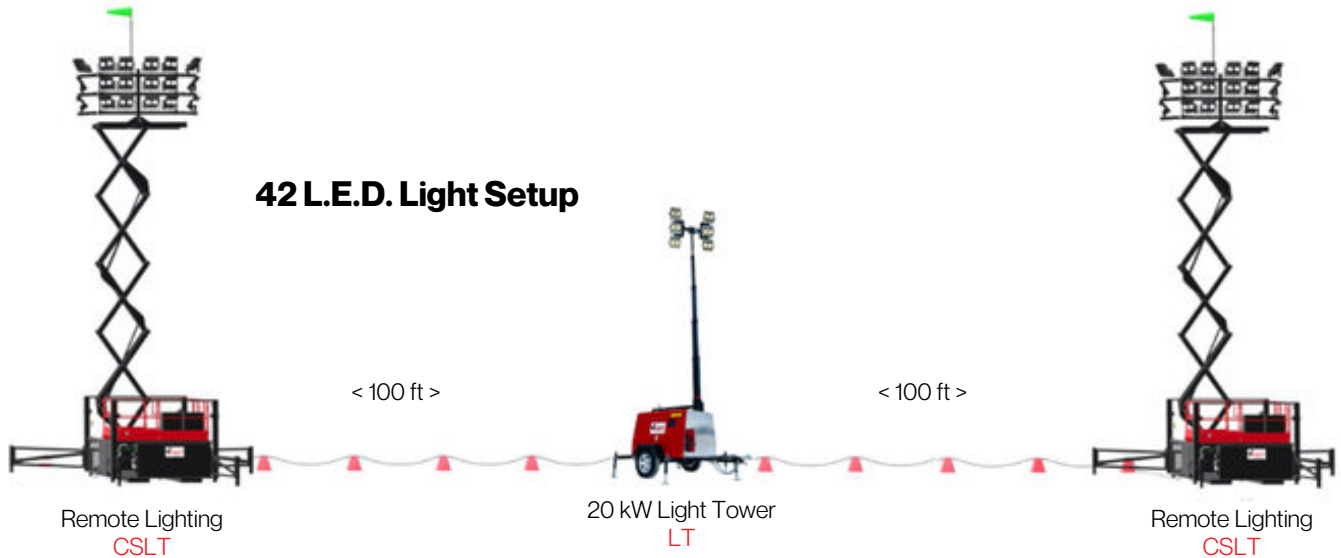

Above shows one running light tower with the remote units using 110v cord plug-ins, this eliminates two running motors in this configuration.

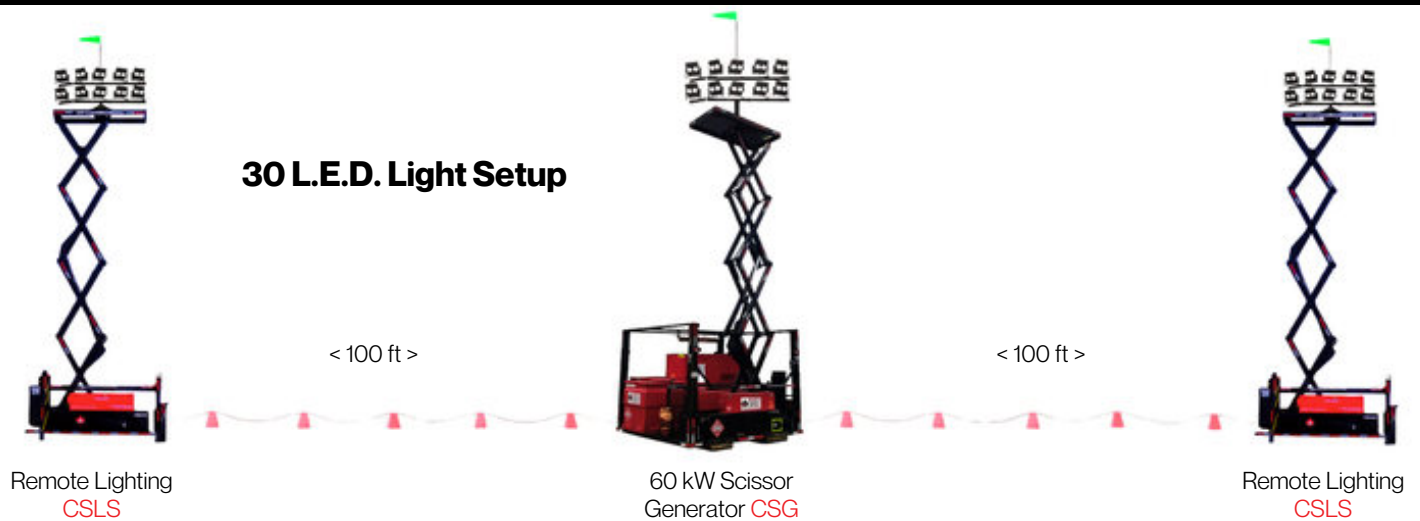

54 L.E.D. Light Setup

42 L.E.D. Light Setup

30 L.E.D. Light Setup

Big Light Tower

- 30 kW generator
- 12 L.E.D. lights
- 1500 L fuel tank
- Multiple plug-ins
- Hybrid capable

HYBRID

Mobile Combo Support

- 2 dry washrooms
- Oil and waste storage
- Garbage storage
- 6 L.E.D. lights
- 30 kW generator
- 2000 L fuel tank

Mobile Combo Support Mini

- Power, fuel, lighting, dry washrooms, garbage; this can all be found on the Mini Combo Trailer. Use in conjunction with our Office Pull Trailers for a quick setup and rigout. 20 kW power & distribution, plug-ins, 1000 L fuel storage, hose, pump & meter, 6 L.E.D. lights, dry washrooms, 4 yd garbage bin, wheeled unit for transport

HYBRID

Porta Potty Garage

- 2 dry washrooms
- 4 yd garbage bin

Fire Suppression

- 2800 L water
- 400 bbl connection
- Fire pump
- Hoses and nozzles
- Pulaskis and shovels

Combo Scissor Generator

- 60 kW generator
- 10 L.E.D. lights
- 1000 L fuel tank
- Power distribution with multiple plug-in types
- Can connect the CF unit for extended run time

Combo Scissor Generator V2

- 90 kW generator
- 18 L.E.D. lights
- 630 L fuel tank
- Power distribution with multiple plug-in types
- Can connect the CF unit for extended run time

Combo Scissor Light Stand

- 10 L.E.D. lights
- 100 ft plug-in
- 34 ft hydraulic scissor mast

Combo Scissor Light Stand V2

- 18 L.E.D. lights
- 100 ft plug-in
- 45 ft hydraulic scissor mast

Light Stand Portable

- 4 L.E.D. lights
- 34 ft hydraulic mast
- Run multiple units in series
- Small footprint

Stadium Light Tower

HYBRID

- 20 kW and 45 kW generators
- 18 L.E.D. lights
- 65 ft mast
- Hybrid capable

Combo Double Generator

- 60 kW to 100 kW models
- Power distribution
- External fuel cell connections

Wheeled Generators

- Up to 600 kW
- Internal fuel tanks and external hook-ups
- Some models include power distribution

Distrubution Panel Carts

- 30 amp and 60 amp
- Various types and sizes of receptacles
- Foam filled wheels

Cording

- 30 amp and 60 amp extension cords

Combo Fuel

- 4700 L capacity
- Double walled
- Pump, hose, and meter

Fuel Storage

- Pump and hose
- Double walled
- Large capacity options available

Deluxe Wash Car

- Large flow volumes
- Hot water with multiple fixtures
- Separate men's and woman's entrance
- Some models are self contained (water storage)

Combo Wash Car

- His and Hers heated washrooms
- Hot / cold running water
- Flush toilets
- On board water storage

Combo / Skidded Water Tanks

- Low level alarm
- Internal pump system
- 8 cube capacity
- Heated

Combo / Skidded Sewer Tanks

- High level alarm
- 8 cube capacity
- Heated

Articulating Boom Lift

- 80 ft platform height
- Four wheel drive
- Foam filled tires
- Articulating jib
- 360 degree swing
- Work lights

Track Loader

- Construction bucket and forks
- Enclosed cab with heat / AC
- Cold start package
- Quick attach

Scaffolding

Our scaffolding solutions provide safe and efficient access for maintenance, construction, and industrial projects. From standard configurations to custom designs, we ensure reliable performance and complete safety compliance.

- Customize to any design required for efficiency and safety
- Erected by SAIA-certified scaffolders

Wellhead | Facility | Turnarounds | Construction | Maintenance

Facility scaffolding is a critical component in construction and maintenance projects, providing a safe and sturdy platform for workers to access elevated areas. It not only enhances safety but also contributes to the overall productivity of a project by facilitating access to hard-to-reach places, making repairs, inspections, and construction work more manageable. Facility scaffolding is a testament to the importance of careful planning and execution in construction, ensuring that workers have the necessary support to get the job done safely and effectively.

Site Service and Setup

We also service the equipment we provide!

- Technical staff for maintenance, service and troubleshooting
- Rig-in and rig-out of equipment

Combo Hook Truck

- Haul up to four combo modules to your worksite and set up in no time with our hook truck and trailer loading system

Trucking and Dispatch

- As well as hauling our own equipment, we also work with certified trucking companies and can help with organizing your site requirements for equipment transportation or trucking services.

Locations

Drayton Valley

- Head office and Yard
 - Servicing Rocky Mountain House, Red Deer and surrounding area

Whitecourt

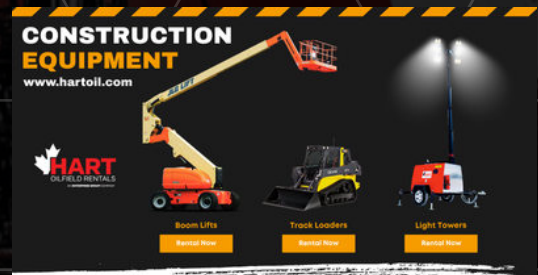

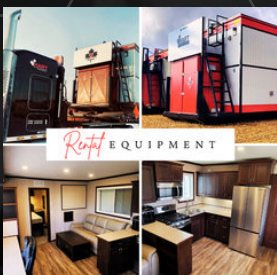

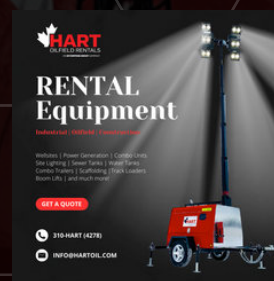

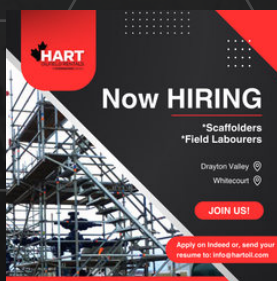

- Office and Yard
 - Servicing Edson, Hinton, Fox Creek and surrounding area

Grande Prairie

- Office and Yard
 - Servicing Grande Cache and surrounding area

Evolution Power Projects Inc

AN ENTERPRISE GROUP COMPANY

Carbon-Reducing Natural Gas Power

Transition to Natural Gas Generators

Consistent

Minimal maintenance and downtime. Some generators require only one 18-hour shutdown per year.

Reliable

Our dedicated technicians ensure our fleet is prepared to deliver consistent performance. Maintenance, diagnostics, and remote monitoring further enhance reliability.

Powerful

Generators range from 100 kW to 2.4 MW, with many models offering advanced sequencing capabilities.

Efficient

Natural gas generators replace inefficient oil-based fuel generators and offer a lower fuel-cost equivalent per unit of energy.

Advanced

Remote monitoring, detailed fuel-consumption metrics, and full data-tracking capabilities. Remote operation with 24-hour support.

Cleaner

A low-carbon fuel source that significantly reduces emissions.

Building Natural Gas Power Infrastructure

Our natural-gas-to-electricity microgrid and expanding generator-rental fleet can replace up to 15 diesel-fired generators per site, eliminating up to 5,000 litres of diesel usage per day while significantly reducing on-site noise levels.

AN ENTERPRISE GROUP COMPANY

LONG TERM RENTALS AND LEASING OF NATURAL GAS TURBINE GENERATORS

FIELD POWER SOLUTIONS FOR OIL & GAS

Reliable Power Where You Need It

Evolution Power Solutions delivers advanced turbine technology and modular microgrids that provide clean, reliable power for remote oil and gas operations across Canada. We turn your waste gas into valuable electricity.

Turbines

Evolution Turbine units
High-reliability microturbines

Microgrids

Evolution Grid systems
Scalable power networks

Real-time oversight

Service

Full Support
Installation to maintenance

Turn Waste Into Power

Convert flare gas, wellhead gas, and tank vapors into reliable electricity instead of wasting valuable resources.

Remote Site Power

Reliable power for production pads, tank batteries, water injection facilities, and processing plants.

Flexible Financing

Lease options with zero upfront costs and transparent monthly billing that includes full service support.

Proven Track Record

65+ turbines deployed across Canada with over 3 million runtime hours for leading E&P operators.

Why Evolution Power Solutions

Proven technology, unmatched reliability, and environmental responsibility for Canada's energy sector.

Proven Track Record

- 65+ Evolution Turbines deployed
- Over 3 million runtime hours
- Approved by major Canadian E&P operators

Reliability & Uptime

- 99%+ uptime in extreme conditions
- Only one 6-8 hour maintenance/year
- 24/7 remote monitoring

Clean & Sustainable

- Operates on wellhead gas
- Eliminates diesel trucking
- Strict emissions compliance

Financial Flexibility

- Zero up-front capital cost
- Transparent monthly billing
- Focus budgets on production

Ready to Power Your Operations?

Join the leading Canadian E&P operators who trust Evolution Power Solutions for reliable, clean, and scalable field power.
