# SCAFFOLDING

## LOCATIONS

Hart's current locations are strategically located throughout west central and northern Alberta. These locations have allowed Hart to establish complimentary "service circles" that slightly overlap and allow Hart to deliver oilfield site set-up services and equipment rentals efficiently to its customers, as well as respond quickly to requests for service or repairs to its equipment when required.

### FACILITY

Customized to any design required for efficiency and safety. Erected by SAIA certified scaffolders.

### WELLHEAD

Multiple wellheads / monoline.  
Scaffold mats give a stable base.  
Scaffold Tarping can be used to keep your crews out of the elements.

# RENTAL SERVICES

### OFFICE PULL

Wheeled Office | Medic | Meeting

### WASHCAR

Bathroom skids designed for large flow applications. Self contained.

### COMBO UNIT

Bathrooms | Power | Distribution  
1000 liters Fuel | Fuel Pump  
4 Yard Garbage Bin

### AIR & HEAT

Structure climate control is a common phase of construction. Whether you have a permanent, contained or hoarded structure, we can provide solutions to meet your air and heating targets.
